About Satori Strings and the musicians:

Satori strings was created in the observance that everyone has specific needs when it comes to music for their big day and deserve to receive exactly what they want. Today, most musical groups begin with specific instrumentation and repertoire and are stuck performing only in this form.

It is Satori String's goal to better serve you by giving you what you want—whatever the instrumentation or repertoire. We take much care and pride in keeping a large working repertoire for instrumentation varying from solo to quintet. If you select a piece not already in our repertoire, no problem; with sufficient time, we will learn and/or arrange it for you.

With Satori Strings, you can be at ease knowing that experienced and professional musicians are working for you.

What we offer:

Satori Strings provides beautiful music for weddings and other special occasions. Our repertoire includes music of various styles—elegant classical selections, traditional wedding pieces, lively folk songs, fiddle tunes, hymns, and Celtic pieces.
